**Weekend Study Assignment: Checking My Review Packet**

Instructions: Look up the answer key to the review packet on my website: <http://lischwe.weebly.com/lessons-and-homework1.html>. Compare this to the photos you took of your packet. For all the problems you got incorrect (or didn't do), try to figure out what your mistake was, and explain it. Then copy the correct work or explanation in the space. (For graphs, just do a rough sketch – you don't have to draw a complete coordinate plane) If there are not enough spaces on this sheet to correct all your mistakes, attach a separate sheet of paper and set them up a similar way.
