**Mr. Lischwe Age Problem**

Right now, the sum of Mr. Lischwe's age and his mother's age is 101. In 2 years, Mr. Lischwe's mom will be twice as old as Mr. Lischwe will be. How old is Mr. Lischwe now?

Show ALL of your work for this problem, even the things you try that don't work. I am more interested in your thinking process than your final answer!!!
