

Name: _____

Lischwe Age Problem, Part 2

Mr. Lischwe has 1 brother, Nate, and 1 sister, Anne. Right now, the sum of Nate's and Anne's ages is 67. Exactly 26 years ago, Nate was twice as old as Anne.

- 1) How old are both Nate and Anne right now?
- 2) On the back of this paper, explain what you did to solve the problem from start to finish.

Show ALL of your work for this problem!!! Do not erase anything – just cross lines through the stuff you try that doesn't work!
